Amit Kumar

Front-End Specialist | Blockchain DApps Enthusiast

PROFILE SUMMARY

- **Result-Oriented Professional** with over 9 years of experience in **Application Development and Enhancement**, and **Service Delivery**.
- Extensive knowledge of **Microsoft Application Block**, **N-Tier Architecture**, **WCF**, **Web API**, and **MVC**.
- Proven track record in delivering applications using **.Net MVC**, **C#**, **WCF**, **WEB API**, and **SQL Server**.
- Skilled in **Front-End Development** utilizing **Angular**, **React**, **JavaScript**, **ES6**, **JQuery**, **HTML5/HTML**, and **CSS**.
- Experienced in working within an **AGILE Delivery Model**.
- Proficient in version control and continuous integration/deployment using **GIT** and **Azure DevOps**.
- Additionally, I have fundamental knowledge of **blockchain technology**, **smart contracts**, and **web3.js**, which I am continuously expanding to stay ahead in the ever-evolving tech landscape.

TECHNICAL EXPERTISE

Front-End Technologies:

- **Frameworks/Libraries:** Angular, Svelte, Angular Material, Tailwind CSS, Kendo UI, Ng Prime
- **Languages:** JavaScript, Typescript (ES6)
- **Testing:** Karma/Jasmine, Jest
- **Markup/Styling:** HTML5, CSS, Bootstrap

Back-End Technologies: C#, ASP.NET MVC, Web API, SQL Server, PL/SQL, LINQ Queries.

Blockchain Technologies: Blockchain technology, smart contracts, web3.js

Tools and Utilities:

- **Code Quality/Testing:** Sonarqube, Lint, Postman
- **Version Control/CI/CD:** GIT, Azure DevOps, TFS, SVN

Development Tools:

- **IDEs/Editors:** Microsoft Visual Studio, Visual Studio Code.
- **Database Management:** Microsoft SQL Server, MongoDB.

KEY RESPONSIBILITIES:

- **Developed and maintained dynamic web applications** using **HTML5**, **CSS3**, and **JavaScript**, ensuring compliance with web standards and semantic interfaces.
- **Built responsive user interfaces** using front-end frameworks and libraries such as **Angular**, **React**, and **Bootstrap** to enhance user experience and accessibility.
- **Integrated new front-end technologies** with legacy systems to improve application performance and optimize user interactions.
- **Collaborated with cross-functional teams** to define and refine front-end functionality, ensuring alignment with project goals and user requirements.
- **Implemented design systems and best practices** to ensure visual and functional consistency across web applications.
- **Ensured high code quality** through adherence to coding standards, performing code reviews, and optimizing code for performance and readability.
- **Conducted unit testing** for front-end components, achieving 80% test coverage to ensure reliability and robustness.
- **Estimated development efforts accurately** and applied troubleshooting skills to resolve front-end issues while staying updated with new technologies.

PROFESSIONAL EXPERIENCE

Nagarro – Remote
Nov 2021 – Present

- Developed and maintained web applications using **Angular, Svelte.js, Tailwind CSS, Karma/Jasmine, Lint, and SCSS**.
- Ensured high-quality code with **80% test coverage** using **Karma/Jasmine** and zero **Sonar** issues and lint errors.
- Implemented and integrated **RESTful Web APIs, JSON, CSS, and HTML5** in application development.
- Followed **Agile methodology** for project management and delivery.

Veritas (Product Org.) – Remote
April 2020 – Nov 2021

- Contributed to the development of the **EV.Cloud** product, providing email archiving and discovery solutions.
- Utilized **Angular, Karma/Jasmine, Jest, RxJS 6, ngRx, Graph API, Veritas Design Language, CSS, SCSS, and HTML5** for front-end development.
- Engaged in mobile app development with **Angular, RxJS, Jest, ngRx, and .NET Web API**.
- Followed **Agile methodology** for project management and delivery.

Cognizant – Pune
Jan 2019 – April 2020

- Developed **RESTful Web APIs** using **.NET 4/4.5** for browser and mobile devices on the **ASP.NET Framework**.
- Employed **Angular 6, Karma/Jasmine, Sonar Runner, Lint, Azure DevOps, Docker, JSON, SASS, CSS, and HTML5** in application development.
- Achieved **80% test coverage** and ensured code quality with zero **Sonar** issues and lint errors.
- Followed **Agile methodology** for project management and delivery.

Infosys – Location
May 2015 – May 2018

- Developed applications using **C#, MVC4, Entity Framework, WCF Services, SQL Server, JavaScript, HTML, CSS, Ajax, JSON, jQuery, XML, and Bootstrap**.
- Followed **Waterfall methodology** for project management and delivery.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science (2011-2015)
Biju Patnaik University of Technology (BPUT) – Bhubaneswar

LANGUAGES

- English (**ESOL** certified from Cambridge University).
- Hindi
